Get involved

City of Wanneroo

The City is developing a new website!

We want to create a modern, user-friendly platform that makes it easier for our community to access services and information online.

There are two ways you can get involved:

Design input survey

Complete our short survey to share your thoughts on how the new website should look, feel and function.

Your feedback will help guide the design of our new homepage and the overall website user experience.

Volunteer community reference group

We're looking for 12 community members to join a reference group that reflects the diversity of our community.

Members will take part in workshops and testing to help ensure the new site is accessible and easy for everyone to use.

To take the survey or register for the reference grop, visit **wanneroo.wa.gov.au/yoursay**

There will be more opportunities to get involved as the project progresses. Keep an eye on our current website and social channels for details.

Need support to participate?

If you have accessibility needs or would prefer to provide feedback another way, please contact us:

call **9405 5007** or email **communityengagement@wanneroo.wa.gov.au**
